BELGIAN INTEROPERABILITY FRAMEWORK

ICEG Person

Thematic Workshop 2

Welcome!

Monday 19 October 2026
Marie-Elisabeth Belpaire (03.N.08)

From 10:00am till 12:30pm

Practical information

Iterative and consensus-based approach, following the U−1 decision rule

Quick polls in the room:

- +1 = agree
- −1 = disagree
- 0 = no opinion

Raise hand or use chat to ask a question

Workshop reports will be made publicly available on GitHub

Recording ?

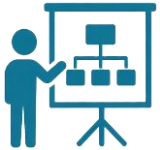

Goal of this session

ICEG – Person | Thematic workshop 2

Review changes from Thematic Working Group 1

Presentation of the Use cases and draft model for Residence and Address

Feedback on the draft model and capturing the input

Scope TW2

- Main Residence
- Temporary Absence
- Foreign Addresses
- Reference Address

Place Of Residence

- Legal Domicile

Domiciliation

Planning

Time	Item
10:00 - 10:05	Planning
10:05 - 10:20	Review TW1: Historic Tracking
10:20 - 10:35	Review TW1: Concepts & Attributes
10:35 - 11:00	Use Case 1: Change of residence
10:00 - 11:15	Break
11:15 - 11:35	Use Case 2: Temporary absence
11:35 - 11:55	Use Case 3: Dual domiciliation
11:55 - 12:15	Q&A and next steps

BELGIF
BELGIAN INTEROPERABILITY FRAMEWORK

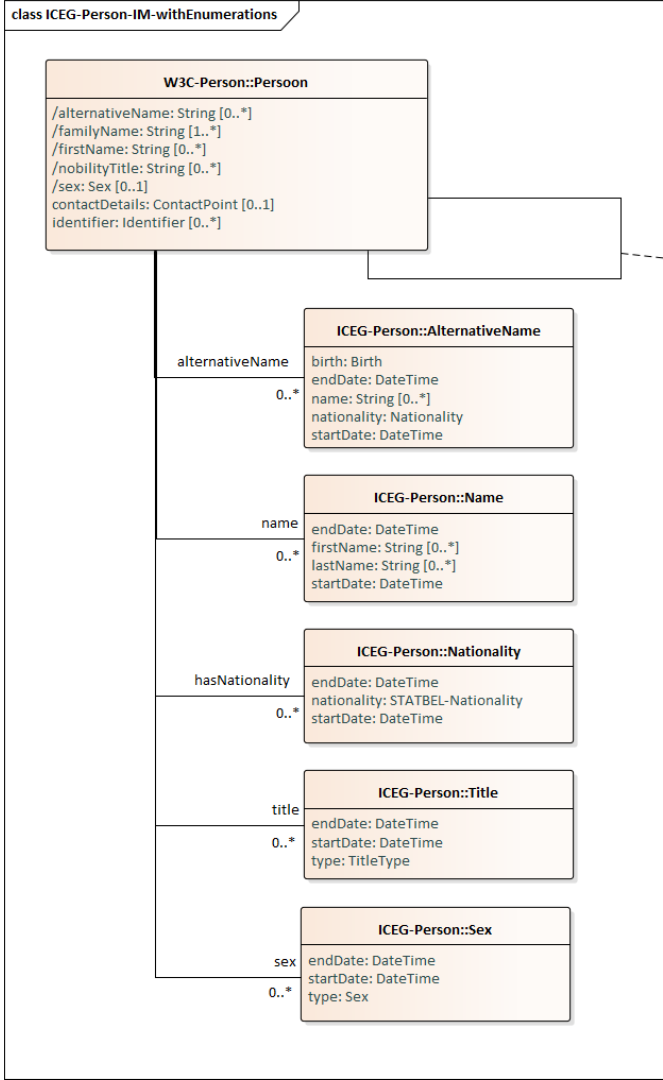

Review Feedback TW1
Core person identification

10:05 - 10:35

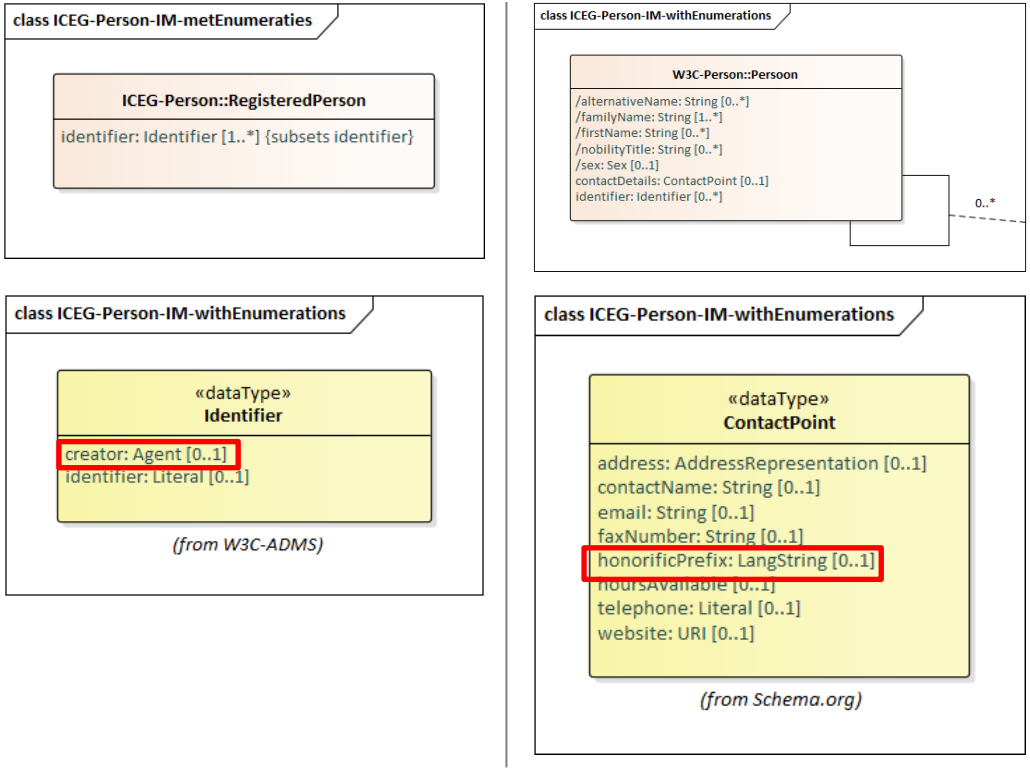

Historic Tracking

A person exists once, and each characteristic that can change over time is held in its own class with a validity period (startDate, endDate). The person's current values are derived from those records.

- **Period**: A record is valid from startDate until endDate.
- An empty endDate means the record is still **valid**.
- **Order**: startDate must be before endDate
- **No overlap** for single-valued characteristics.
- Nothing is overwritten**. History is cumulative** (0..* cardinality).

Concepts & Attributes

Identifiers

A person can have many identifiers (identifier [0..*]). Each identifier names its issuer (creator: Agent [0..1]). The label "registration" is renamed to "identifier", in line with SEMIC.

Registered sex and gender

Registered sex is a time-bound record with a start and an end date. The current registered sex is derived from the record that is valid today, and earlier entries remain in the history. Gender is not modelled. Only the salutation used to address a person is captured (honorificPrefix), under contact details (ContactPoint).

Nationality

Nationality is added as a time-bound record with a start and an end date. A person can hold several nationalities over time, or at once. The value comes from the STATBEL nationality code list.

BELGIF
BELGIAN INTEROPERABILITY FRAMEWORK

Use Case 1

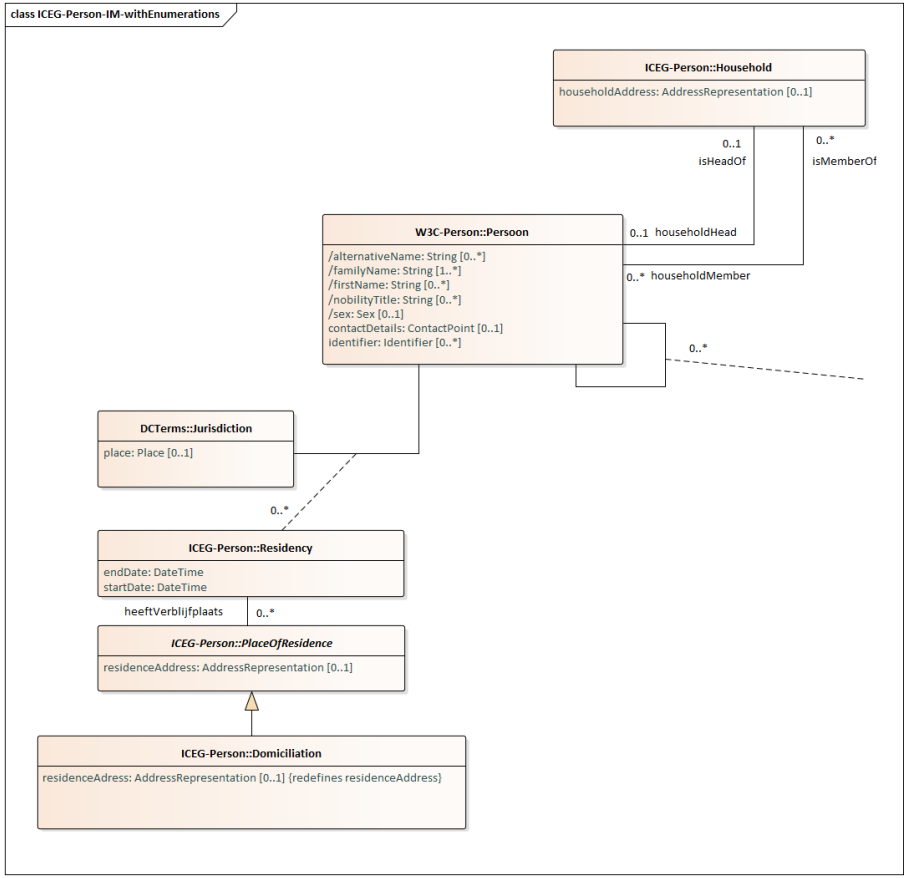

Change of main household residence

10:35 - 11:00

Change of main household residence

Sofie lives with her two children at Rozenlaan 25, box A, in Ghent. She declares to the municipality that the family is moving to Bondgenotenlaan 10, in Leuven. Leuven registers the new residence, and all three household members get the same new residence on the same date. Afterwards the municipality notices the date was entered wrongly and corrects it. Later, Leuven renumbers the street. Sofie has not moved, but her address has changed.

Change of main household residence

What is an Address?

A structured description of a place where a person can live or be reached (street, number, box/unit, postal code, municipality). For Belgian addresses it refers to the official address register. The box/unit is a free string.

What is a Residence?

The place where a person usually lives and is registered. It has a start, an end, the registering authority, and the address. A person has one main residence per jurisdiction at a time.

What is a Jurisdiction?

The state or authority whose register or rules a domiciliation belongs to.

What is a Declaration of change of residence:

The formal act by which a person or household notifies the municipality of a move. It ends the previous residence and starts the new one.

What is a Household address:

The address shared by the members of a household. It is derived from the members' residences, and it is empty when members live at different addresses, live alone or live in collective housing.

Change of main household residence

Sofie and her two children move from Ghent to Leuven.

Address 1

Rozenlaan 25/A, 9000 Ghent

Domiciliation

startDate 2019-09-01
endDate 2025-03-15

Address 2

Bondgenotenlaan 10, 3000 Leuven

Domiciliation

startDate 2025-03-15
endDate 2026-01-01

Address 2, renumbering

Bondgenotenlaan 12

Domiciliation

startDate 2026-01-01
endDate *empty*

Household Address

Sofie + two children

Household

Each member of the household has their own Domiciliation with the same period and address. One declaration, three records.

Use Case 2

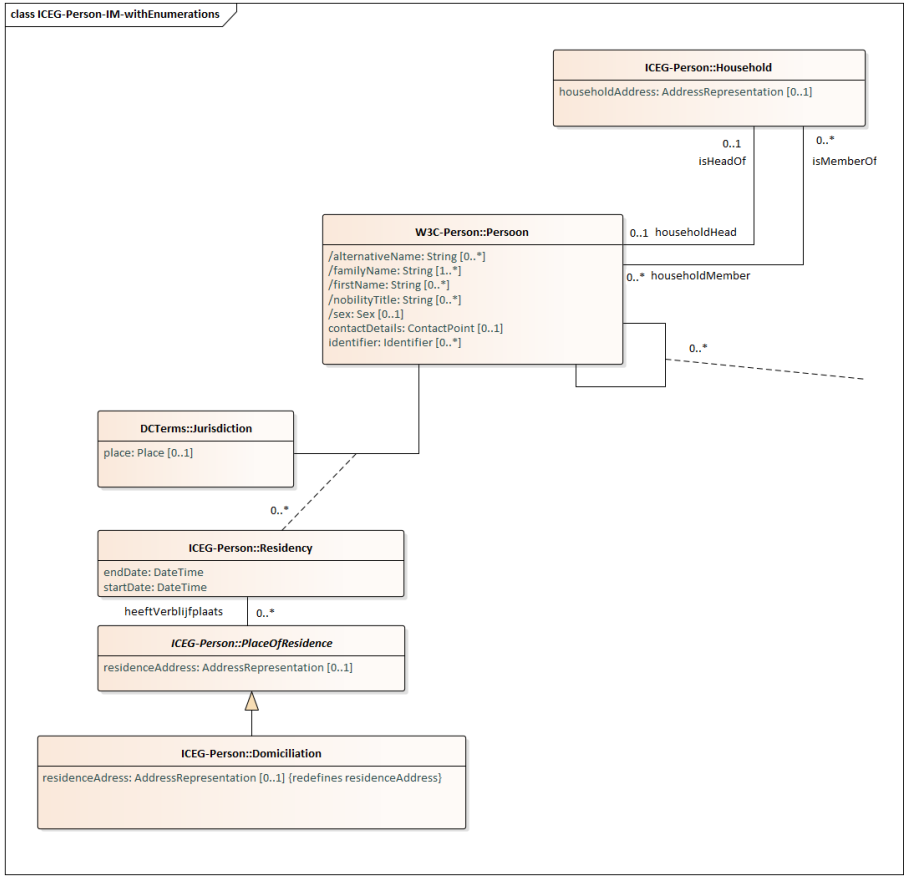

Temporary absence & foreign address

11:15 - 11:30

Temporary absence & foreign address

Lina lives in Mechelen, where she is registered. Her employer sends her to Nairobi for a mission. She tells the municipality she will be temporarily absent and gives her address in Nairobi. Her residence in Mechelen does not change. She also asks for her post to go to a PO box in Nairobi. Later she decides to stay in Kenya permanently. Her Belgian residence ends. She registers with the Belgian embassy, and her main residence is now abroad.

Temporary absence & foreign address

What is a Temporary absence?

A period in which a person does not live at their main residence but keeps enough ties to return at any time. The main residence does not end. The place of stay is recorded when known.

What is a Place of Stay?

A place of stay is where a person actually is for a period, whether or not they are registered there. It does not need to be a main residence. It is a factual location, not a registration.

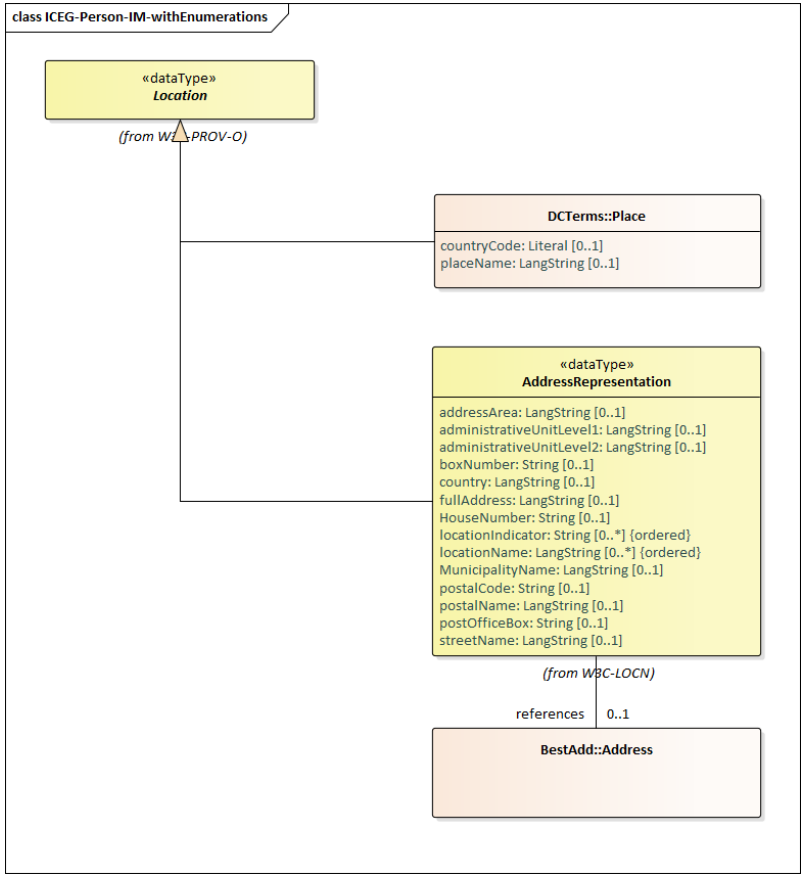

What is a Residence abroad?

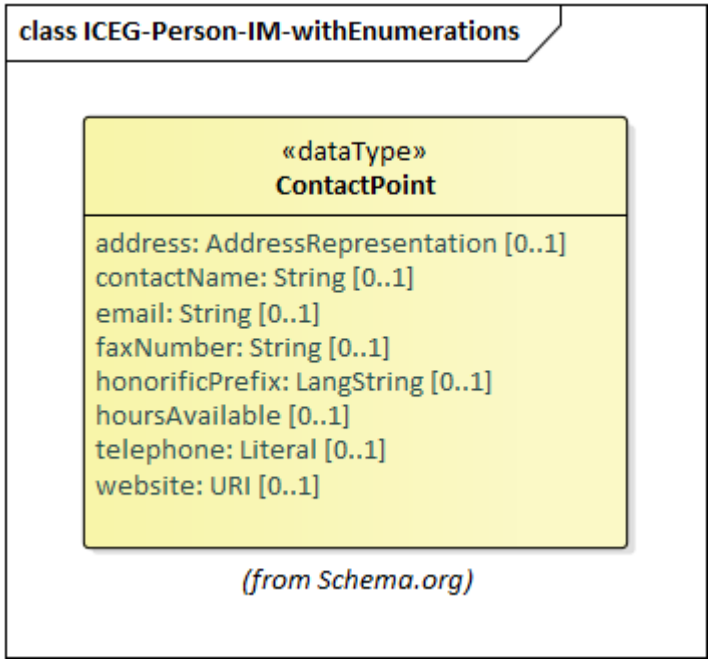

The main residence of a Belgian who has settled abroad. It is recorded through a Belgian consular post, which may be in a different country from where the person lives.

What is a Correspondence address?

The address where a person wants to receive mail. It is not a residence and is held under contact details, with a purpose and a period.

Temporary absence & foreign address

Temporary absence & foreign address

Lina lives in Mechelen, works 18 months in Nairobi, asks for her mail there, and later settles in Kenya.

Address 1

Korenmarkt 5, 2800 Mechelen

Domiciliation

startDate 2018-06-01
endDate 2025-07-01

Address 2

Westlands Rd 14, Nairobi

PlaceOfResidence

startDate 2024-01-15
endDate 2025-07-01

Address 2 (same address)

Westlands Rd 14, Nairobi

Domiciliation (residence abroad)

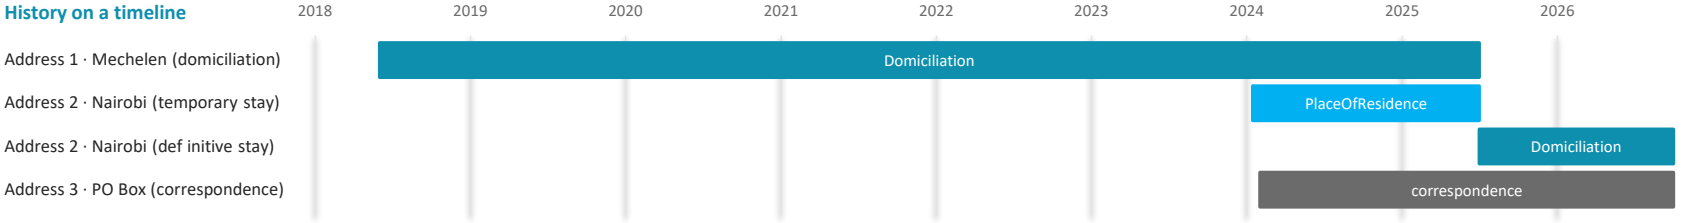

startDate 2025-07-01
endDate *empty*

Contact Point Address

PO Box 1234, Nairobi

ContactPoint

Use Case 3

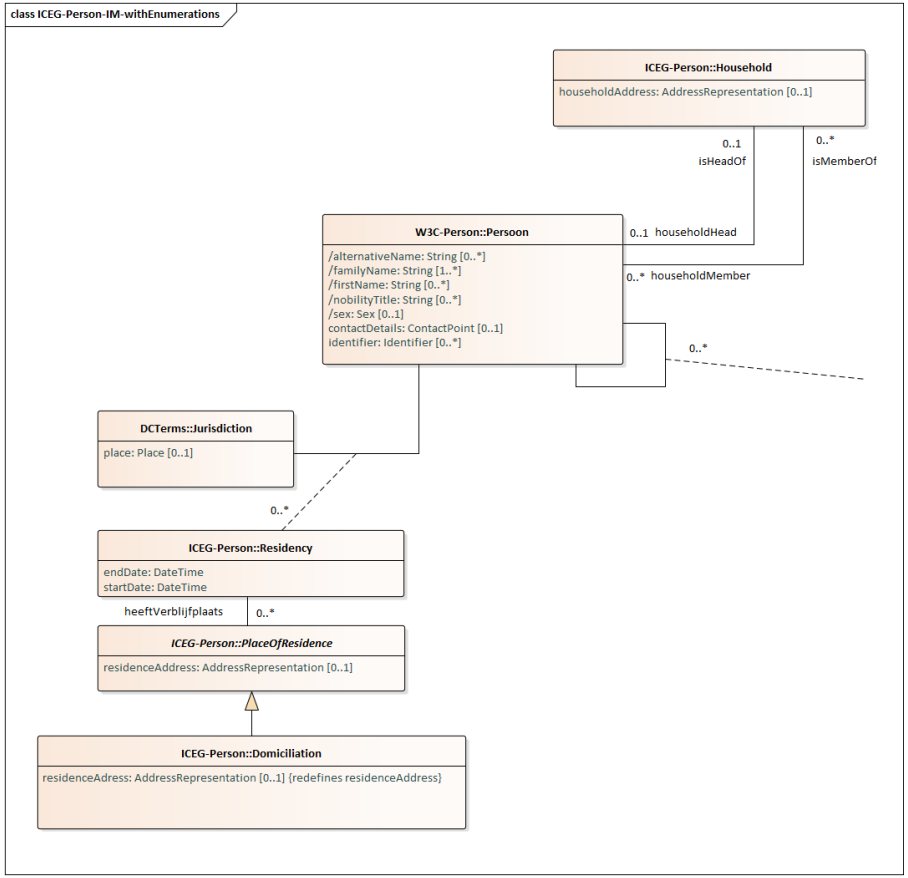

Dual domiciliation & reference address

11:15 - 11:30

Dual domiciliation & reference address

Marcell fled from a country in conflict. In Belgium he applies for asylum and is provisionally registered at the address of a reception centre. After a few months he is recognised as a refugee and registers at an address in Leuven. After verification of his new declared address, he now has a domiciliation in Belgium and, still on record, one in his country of origin.

Dual domiciliation & reference address

What is a Dual domiciliation?

A person who holds a domiciliation in two jurisdictions at the same time. Each jurisdiction has at most one at a time.

What is Provisional registration?

Registration on declaration, before the address is checked.

What is a Verification of residence?

A check that the person actually lives at the declared address. Outcome: ongoing, positive or negative.

What is a Reference address?

An address where a person without a fixed home is registered, with the consent of the person or organisation at that address. Only for defined categories: lack of means, mobile home, detention, professional reasons, foreign mission, military service, victim.

Use case 3: Domiciliation in two countries, the refugee

Amir fled his country. In Belgium he is registered provisionally, checked, recognised, and moves to Leuven. (Illustrative dates.)

Address 1

[address in country of origin]

Domiciliation (origin)

startDate unknown
endDate unknown

Address 2

Reception centre, Brussels

PlaceOfResidence (Belgium)

startDate 2023-01-10
endDate 2024-11-20

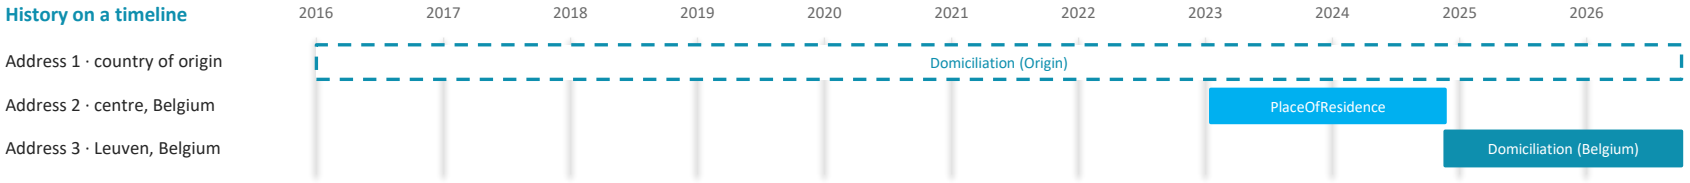

Address 3

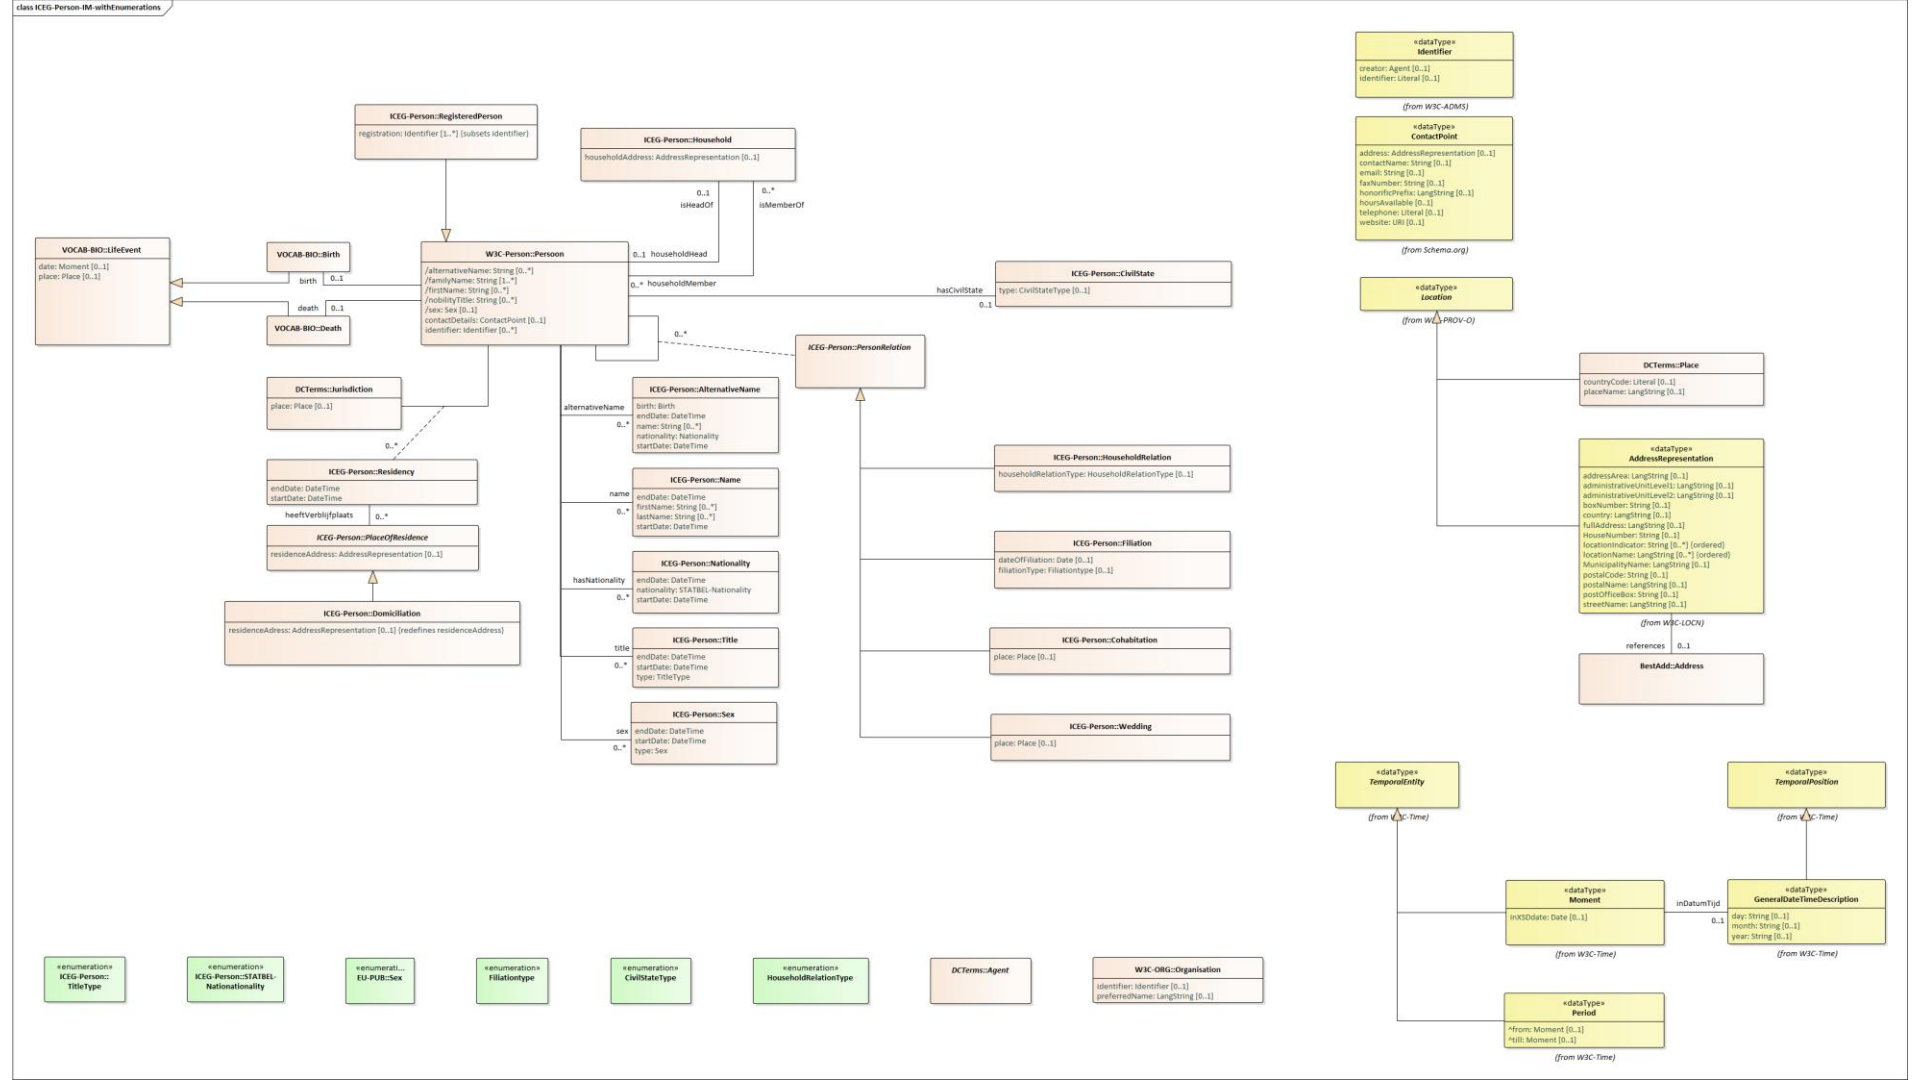

Bondgenotenlaan 10/3, Leuven

Domiciliation (Belgium)

startDate 2024-11-20
EndDate *empty*

Q&A

Next Steps

Processing all input from this thematic working group

Circulating a report of this working group –> any feedback is welcome

Incorporating the input of this session into the current draft model

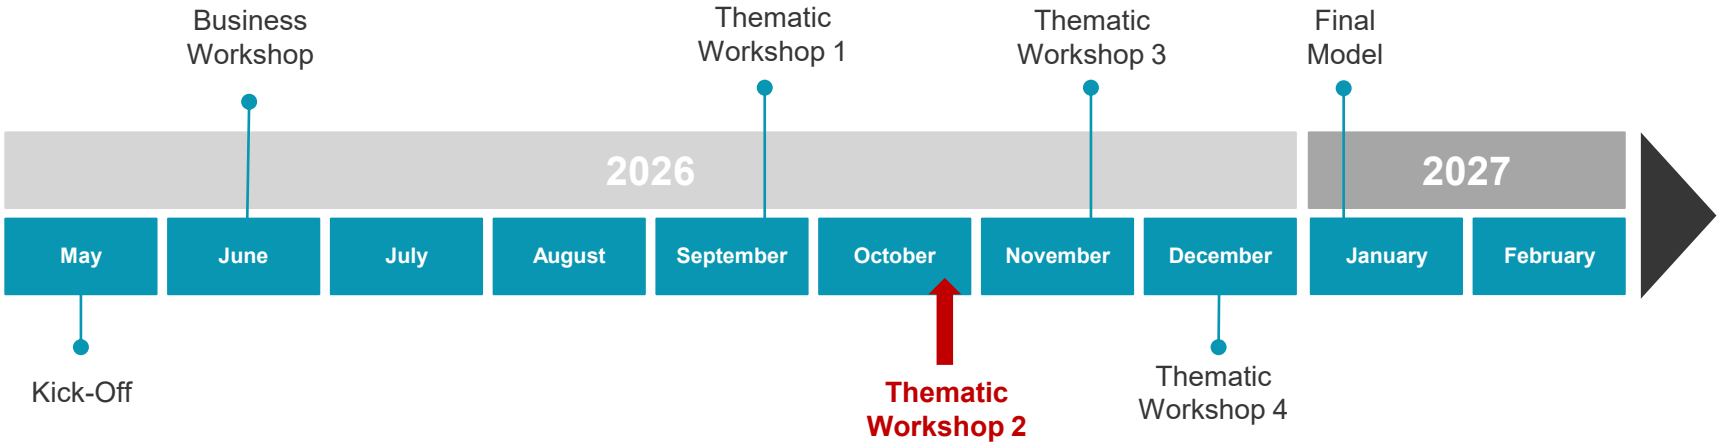

Capturing further feedback via GitHub

Publishing a first version of the semantic model

Timeline

Thematic workshop 3: Family Relations and Civil Status
Date: Monday 19 November 2026, 10:00 – 12:30
👉 Register via the following link: Topics & registration workshop 3.

Feedback & Collaboration

Feedback can be given by e-mail to the following people:

- valy.vandenbroeck@vlaanderen.be
- dylan.vanassche@vlaanderen.be
- jitse.decock@vlaanderen.be

GitHub

Feedback/input can be given via GitHub by creating ***Issues***:

https://github.com/belgif/thematic/issues

👉 Public review period: ?

The minutes of this session will be shared on GitHub following the Thematic Workshop. You are invited to submit your comments as issues on Github.

THANK YOU !
